Doing What's Right with Money

A part of living an abundance life requires that you take care of all your unresolved money business. These are all the things you put off because your mindset is based on lack instead of abundance.

Resolving your unfinished money business is a powerful process that will unlock all of your blocks to prosperity. You don't have to do everything on your list at once. This is an incremental process, so start small and then work your way up to the big and scary stuff. This will require that you live in total faith that financial abundance is yours.

As you take little steps, you will see results manifest rapidly. However, don't overwhelm yourself. Just take one step at a time. Now is the time do everything you promised yourself you would do once you had the money. Spirit will be with you. Just do your best and trust, *truly trust* that all the money you need will be provided.

Below are some questions to help you construct your unresolved money business list. As you review the questions, if anything comes to mind- no matter if it is related money or not, write it down. In doing this work, your intuition will kick in and guide you to the areas of your life where you are out of alignment with your ideal abundant lifestyle. The goal is always to match your energetic output with your dreams. This exercise will help you do so.

I will be incredibly honest with you, once you write your list, you will be held accountable to doing everything in your power to heal each situation. You can no longer ignore your money problems. Even if you don't know how to resolve it, just take one step and do what you feel is right. One step. Spirit will be there to help you.

Questions to help you construct your unresolved money business list:

Instructions: You do not have to write down answers to these questions. They are just prompts to help you uncover anything that may be blocking your flow to abundance. As things come to mind, that you know you need to resolve, write them down.

Do you need to apply for a job that better fits your lifestyle?

Do you need to return to school to advance your professional goals?

Is there something or someone in your life that is draining your energy or causing you discomfort?

Is there a project you've been putting off in your business?

Have you billed for all of your services in your business?

Are you charging what you feel is right for your services? Do you need to increase your rates?

Are you keeping your promises to your children and partner in regards to money?

Is there an area of your home or place of work that is cluttered or needs to be cleaned out?
